

# Glenwood

Glenwoods are always Brim Full of New Wrinkles

The Glenwood Balanced Baking Damper is far ahead of any other—it is as positive as the turning of a railroad switch—open to start the fire, closed to bake—just this one damper for kindling or baking and best all, it can't warp or stick.

The Glenwood Revolving Coal Grate is easy to shake at all times, and simply fine for removing clinkers. It is triangular in shape, with three different sides for wear.

The Glenwood Sectional Top is interchangeable—cross pieces can not warp—a wash boiler can be placed at the back as well as in front for quick heating, leaving the front holes free for cooking.

The Glenwood Shelf Under Oven Door is not stationary—it automatically raises and lowers as oven door is opened or closed. It is always level with oven bottom—a great convenience when basting meats or removing food.

The Ash Pan rests on a roller bearing frame—just open door and it rolls out at the slightest touch, neat and clean.

Glenwood Iron is smooth and perfect—the easiest of any to clean—a real delight to the most exacting housekeeper.

It's the range that "Makes Cooking Easy"

## OBREGONSLOW TO START

But General Villa Is Said to Be in a Vise

WELL DEFENDED AGAINST HIM

He Can Escape Only by Going Back—British Recognition Is Ready

Naco, Ariz., Nov. 18.—Although the Carranza headquarters at Agua Prieta announced yesterday that General Obregon had finally ordered the general offensive against Francisco Villa to begin, Obregon, who is at Naco, Sonora, has shown no sign of moving southward. According to apparently reliable reports Villa is between two strong lines of Carranza troops and his only means of escape is to go back to Chihuahua.

The disposition of opposing armies were approximately as follows: Obregon has about 6,500 troops between Villa and the border. They hold positions at points on a line extending from Naco, Sonora, on the border to Cuppas, about 100 miles south of Agua Prieta, Villa, with about 11,000 men of all arms, according to the best available information, is between this force and the arms of General Manuel Dieguez, disposed about Hermosillo, the capital of Sonora.

Carlos Randall, Villa's governor at Nogales, Sonora, declared that Villa and the Yaqui chief, Francisco Urbalejo, had actually begun an attack on Dieguez at Hermosillo. Dieguez, however, has not less than 14,000 men, counting 6,000 reinforcements that have reached him from Guaymas, and it appears that the nearest Villa got to the state capital was Garbo, some forty-five miles north of Hermosillo, and his forces, at last reports, were stretched in detachments from Magdalena, which is almost due west of Casas Grandes, Chihuahua, the point from which the outlaw chief started his invasion of Sonora.

With the exception of Nogales and Cananea, Villa holds no Mexican town closer to the border than Magdalena, which is fifty-four miles from Nogales.

### WHITMAN SEES WILLCOX.

Ex-Chairman of Service Board Confers With Governor.

Albany, Nov. 18.—William R. Willcox, ex-chairman of the public service commission, was the luncheon guest of Governor Whitman yesterday and it was expected that something would develop regarding the charges made against Chairman McCall of the New York City public service commission. The governor said that if there was any news to give out it would come from him after the conference.

## Topics of the Home and Household.

Grate a little fine spermaceti into your starch if you want the linen glossy.

Cream Slaw—Chop fine a crisp cabbage, season with salt, pepper and good vinegar to suit taste; and just before sending to table add a cupful of whipped cream, sweet.

When turning a hem on linen, keep a glass of warm water at hand and dip the fingers into it frequently. The stiffness of the heavy linen will yield and the work may be accomplished much more quickly and accurately.

When scouring steel knives with brick dust, it is a good plan to mix a small quantity of baking soda with the dust. In this way a much brighter polish is obtained, and with far less expenditure of time and labor.

Hang a whisk broom on the back porch and encourage the boys and other members of the family to use it. This will lighten indoor work to a surprising extent, especially if the members of the family are also careful to use the doormat.

To prevent plant pots from leaving a mark on a table or shelf try this plan: First lay a linen cloth, if you wish to use one, on the table; place upon it a piece of plain window glass cut to fit the table. The flowerpots and saucers may rest safely on the glass, which is easily cleaned whenever necessary.

To mend a frayed tablecloth, fasten a piece of sheer muslin or organdy firmly on the wrong side of the cloth, keeping the threads as nearly as possible in their proper position; then place that part of the cloth in an embroidery hoop and darn over and under the frayed threads and into the firm cloth an inch or two on either side. Use, if possible, linen thread pulled from a piece of left-over new table linen. After laundering the mended place in the cloth will hardly be noticed.

### Cake Making Axioms.

To get a fine grained cake, beat thoroughly after the flour is added.

Sweet milk makes cake that cuts like pound cake. Sour milk makes spongy, light cake.

Always sift flour before measuring, then it may be sifted again with the baking powder to insure their being thoroughly blended.

In making fruit cakes add the fruit before putting in the flour, as this will prevent it falling to the bottom of the cake. Flouring the fruit is unnecessary, unless the fruit is damp.

If a cake cracks open while baking, the recipe contains too much flour.

In creaming butter and sugar, when the butter is too hard to blend easily, warm the bowl, and, if necessary, warm the sugar, but never warm the butter, as this will change both texture and flavor of the cake.

The smaller the cake the hotter should be the oven. Large, rich cakes require very slow baking.

Grease cake pans with lard or drippings, as butter will be likely to make the cake stick, owing to the salt in it.

## FACE COVERED WITH PIMPLES ALL HER LIFE

But Miss Ayres Got a "Beautiful Complexion" at a Cost of Only \$2.00

Nov. 23, 1914.—"All my life my face was covered completely with a mass of pimples, blackheads and blotches. I spent a lot of money on numerous remedies and treatments without success and no relief at all. I tried so many things that I was afraid my case could not be cured. Resinol Ointment and Resinol Soap seemed to do me good right from the first. I used two jars of Resinol Ointment and some Resinol Soap, the total cost being only \$2.00, and this completely cured my case. My skin is without a blemish and I am the possessor of a beautiful complexion." (Signed) Mabel Ayres, Stone Mountain, Va.

Every druggist sells Resinol Soap and Resinol Ointment, and physicians have prescribed them for twenty years in the treatment of eczema and other tormenting skin troubles.

## WILSON PLEADS FOR HILLSTROM WITH SPRY

President Asks Utah Governor To Reconsider Case—Case, However, Out of Governor's Hands.

Washington, Nov. 18.—President Wilson yesterday for the second time wired Governor Spry of Utah, asking him to stay the execution of Joseph Hillstrom, sentenced to die Friday.

The president's telegram read as follows: "With unaffected hesitation, but with a very earnest conviction of the importance of the case, I again venture to urge upon your excellency the justice and advisability, if it be possible, of a thorough reconsideration of the case of Joseph Hillstrom. Woodrow Wilson."

Salt Lake City, Utah, Nov. 18.—The citizens who will shoot Joe Hillstrom for the state on Friday practiced yesterday at a target about the size of a human heart.

"Good!" exclaimed Sheriff Corless as the death missiles struck almost in the center of the imaginary heart. "Aim so death will be instantaneous," he instructed the five riflemen.

The squad fired many volleys. Two extra cake shots took their turns. They will replace any of the regular paid executioners who may weaken at the last moment.

A secret meeting was held late Tuesday night between Governor Spry, Warden Pratt of the prison, Attorney-General Barnes and two justices of the state supreme court. The significance of the three-hour meeting was not revealed.

As the hour of the execution approaches the guards around the public buildings and bodyguards of officials have increased their vigilance. Searchlights illuminate the prison walls and yards at night.

Hillstrom talked incessantly to the death watch yesterday. The condemned man cannot sleep. Other signs of breaking down under the terrific strain led officials to fear that he might have to be carried to the death chair Friday.

### AMUSEMENT NOTES.

#### "Within the Law."

At Barre opera house on Monday, Nov. 22, the Urban Stock company are to produce for the first time in this city at popular prices, the modern problem melodrama, "Within the Law." It is pitiless arraignment against the men who ask girls to work for them at wages on which the girls cannot live. It is an ironic exposure of the way the law is successfully twisted by expensive lawyers to fit rich clients' needs; and above all it is an exciting entertainment of the most vivid kind in which sympathy from the first to the last is with the shopgirl who is sent to prison for a crime she never committed. The story is too complicated to be told completely. The main ideas can only be suggested on paper, to enjoy them fully in their theatrical stir, they must be watched as they unfold on the stage of the opera house. In an editorial published in the New York Evening Journal, the celebrated clergyman, Dr. C. H. Parkhurst, said, "It is a great play that is running at the Eltinge Theater, entitled, 'Within the Law.' There is one scene in it that is tremendously effective, and if the Eltinge theater could one of these evenings be packed with such employers of labor in this city as pay their girls part wages and leave it to rich gallants to supply the balance, there would be some attendants who would go away with pricked consciences, and that would put a new construction upon themselves, and the relations they sustain to the poor unfortunates whom they are pushing to destruction, instead of trying to save them from it. There is an inhumanity on the part of the employer who is negligent of the best interests of those who work for him, and that inhumanity comes to its extreme expression in such an instance, for example, as that in which shopgirls are insufficiently paid and allowed to risk their salaries by selling themselves, body and soul, to the highest bidder." This is the play that caused six big department stores to raise the wages of their shopgirls. Miss Marion Johnson will be seen in the part of Mary Turner, the girl who is sent to prison for three years for something she did not do. Seats go on sale Friday morning at Brown's Drug Store.—adv.

#### The "Old Folks."

Deal very gently with those who are on the downhill of life. Your own time is coming to be where they now are. You, too, are "stepping forward." Soothe the justness of age by amusement, by consideration, by noninterference and by allowing plenty of occupation to fall into the hands that long for it. But let it be of their own choosing and cease to order their ways for them as though they were children. Cultivate the great art of leaving people alone, even those you think you have a right to direct in the minutest particular.—Cork Examiner.

## TWENTY-FIVE MEN STILL BURIED IN MINE

Rescue Parties Try to Recover Bodies—Thirty-one Known to Be Dead as Result of Explosion.

Seattle, Wash., Nov. 18.—Rescue parties which labored in ninety-minute shifts Tuesday night were still at work yesterday endeavoring to recover the bodies of twenty-five men, buried under tons of debris in the third level of the Northwestern Improvement company's coal mine at Ravendale, thirty-five miles southeast of Seattle. An explosion in the mines Tuesday killed thirty-one men and injured three others. The bodies of six, including Foreman P. J. Kane, were recovered Tuesday night and the rescuers have hopes of reaching two more within a few hours, but the others are so far back in the wreckage-choked level, 1,500 feet under ground, that it is feared it will take many hours to reach them. The force of the explosion tore down timbers and supports all through the mine and the rescuers were compelled to build new supports as they cleared away the wreckage.

Expert rescue teams from the United States bureau of mines station in Seattle and from coal camps on both slopes of the Cascade mountains were rushed to Ravendale to assist in the rescue work. After entering the third level, where Foreman Kane's body was found, the oxygen helmet men announced that there was no doubt that all still in the mine were dead. Approximately \$124,000, it is said, will be paid from the state industrial insurance fund to the families of the miners who lost their lives in the disaster. The law gives \$4,000 for each married man and a lesser amount for single men. Only seven of the thirty-one who lost their lives were single.

## YALE RECEIVES A \$1,000,000 BEQUEST

\$25,000 Also Left To Maud L. Kingsbury of Brookline By Justus S. Hotchkiss.

New Haven, Conn., Nov. 18.—Yale will receive more than \$1,000,000 from the estate of Justus S. Hotchkiss of this city, according to his will filed yesterday for probate. Yale is made the residuary legatee of his estate. The fund which goes to the university will be divided into three equal parts, one each to the academic, law and the logical departments without restrictions. Center church here is given two houses of Mr. Hotchkiss on Church street, one to be used as a parsonage and \$50,000 as a permanent church fund. A total of \$700,000 is left in small amounts to relatives and servants. Florence W. Sargent, Harriet W. Sargent and Fanny W. Kingsbury are left \$100,000 each and Maud L. Kingsbury of Brookline, Mass., is left \$25,000. Alvin H. Hotchkiss, son of the Hotchkiss family, is left \$100,000 and \$100,000 is given to the New Haven General Hospital. Ex-Governor Baldwin, Samuel and James Hemingway are named as executors. Mr. Hotchkiss, who died at his home here last week at an advanced age, was a large owner of stocks in rubber companies.

### BURKITT TO APOLOGIZE.

Postmaster President Reinstated Sorry for Engagement Comment.

Winnetka, Ill., Nov. 18.—George Burkitt is sorry that he talked about President Wilson's marriage and will write the president an apology whenever he gets time, said Charles Burkitt, brother of the postmaster yesterday. The postmaster is keeping Burkitt very busy.

### PANAMA NEEDS THE MONEY.

Urges Approval of Loan by State Department.

Panama, Nov. 18.—President Porras has mailed instruction to Emilio A. Morales, the Panama minister to the United States to endeavor to obtain the approval of Secretary of State Lansing to the proposed new Panama loan of \$1,250,000 on the best terms possible, even to the extent of consenting to the appointment of a fiscal agent for Panama's finances, according to reliable information here. The instructions to the minister, it is said, include the negotiation of the loan with the National City bank of New York or, failing in this, with the Commercial National bank of Washington. The consent to the appointment of a fiscal agent is contingent upon the approval of Secretary of State Lansing to Panama giving interest from \$6,000,000 invested in securities in the United States for the new loan.

It is understood that W. E. Pulliam, former director general of customs in Santo Domingo, is being considered as a suitable person to supervise Panama's financial operations and introduce economies. According to President Porras a fiscal agent is desired in order to examine into the condition of the Banco Nacional, which is generally reputed to be in a bad situation financially. It is also said that the national treasury is virtually without funds necessary for the ordinary operations of the government.

In some quarters here it is said the appointment of a fiscal agent is necessary owing to the unsatisfactory state of Panama's finances, it being alleged that there is now a deficit in excess of \$1,250,000. It is added that the bankers decline to accept the liquor tax as security for the new bond issue because of the uncertainty of the situation and that therefore President Porras is endeavoring to obtain the consent of Secretary Lansing to hypothecate the New York investment interest.

### TO INDICT 100 LABOR AGENTS.

Bribery, Conspiracies and Slugging Affairs to be Charged, It is Said.

Chicago, Nov. 18.—The Daily News publishes, on authority of "a man who is familiar with every act of the grand jury" a story that one hundred business agents of labor unions of Chicago will be indicted by the November grand jury. The charges, it is said, include bribery, accepting bribes, conspiracies and slugging affairs. Great secrecy marked the inquiry and it is said that many business men and contractors testified as to the methods of business agents who acted without the authority of their unions. Hundreds of thousands of dollars are said to have changed hands in the alleged "shakedown."

### WILSON'S BIG TURKEY.

President's Thanksgiving Bird a Portly Kentucky Gobble.

Washington, Nov. 18.—President Wilson's Thanksgiving turkey will be a big house gobble, being "pointed" yesterday on the Kentucky farm of South Trimble, Clerk of the House. Chestnuts and celery are the special diet of the presidential fowl. Mr. Trimble had word yesterday that it would probably reach 24 pounds and would be expressed here alive. He has supplied the White House turkey for three years.

### WESTERVILLE.

Winnetka, Ill., Nov. 18, and Winnetka, Nov. 18, will hold a card party and dance at the Westerville hall Friday evening, Nov. 19. Members, with families, invited. Free tickets from 7:30 to 9:30, starting from 9:30 to 12.

For washing dishes use a teaspoonful of Gold Dust to a full dishpan of hot water.

Follow the simple directions on every package of Gold Dust.

## For washing dishes

This is one of the uses in which Gold Dust is supreme.

But remember that its use is not to be limited to washing dishes.

Gold Dust cleans, brightens and beautifies everything in the house.

It is safe, quick, and sure.

Millions of women have learned that it is the one washing and cleaning powder for all cleansing and purifying purposes.

It cleans floors, linoleum, kitchen utensils, bathtubs and bathroom fixtures, windows, fine woodwork, silver, plated, copper and nicked and enameled ware—

And it does not scratch or mar.

In the truest sense Gold Dust really works for you.

It penetrates corners that can not be reached with fingers or wash cloths and takes out dirt and grease. In addition to its activity as a cleaning powder, Gold Dust acts as a disinfectant.

It makes everything clean and pure. Gold Dust is the only cleaner you need. Its popularity is universal.

It is inexpensive and indispensable.

"Let the Gold Dust Twins do your work."

Five-cent and larger packages sold everywhere
